

Full-Stack Software Developer

About Us:

“**intelfolio**” is a North-American SaaS (Software as a Service) start-up company providing financial analytics and benchmarking to private companies. We are a team of analytics-minded, friendly and socially conscious people, driven by a passion for what we’re doing. We are looking for software developers to join our team and help us develop new features and shape up our products and services in great ways. For more information about the company and what we do please visit our website at <https://intelfolio.com>

Your typical day at intelfolio might include:

- Developing front-end and back-end code using various cutting edge technologies.
- Creating reusable components and views according to UI designs.
- Translating business requirements into unit tests and functional tests.
- Working with various databases and storage engines.
- Performing code reviews.
- Configuring infrastructure and servers.
- Participating in meetings and architectural discussions.
- Be comfortable working in a team and effectively collaborate with peers.
- Sharing knowledge with other team members and improve our processes.

You’re good at:

- Writing clean and efficient code in one or more object-oriented or functional languages like Java, Python, JavaScript, PHP, etc.
- Building interactive UI components using HTML, CSS3 & JavaScript frameworks.
- Developing RESTful APIs and web services exchanging JSON.
- Relational databases like MySQL as well as NoSQL databases.
- Linux systems installation and configuration.
- One or more version control systems like: Git, Bitbucket, etc.
- Learning new things quickly.

Extra awesome (*bonus points if you love any of the following*):

- Server-side JavaScript applications using Node.js and frameworks like express.js, etc.
- Front-end JavaScript frameworks like React, etc.
- Elasticsearch or Redis.
- OO Design Patterns and writing reusable and modular code.
- Agile best practices and Continuous Delivery.
- Test Driven Development (TDD) practices and writing unit tests.

If you meet the required criteria and excited about your role, please send your resume to Polad Mirzayev at polad@intelfolio.com

Due to the volume of resumes, only those candidates being considered will be contacted.
